

UP TO \$1,000 IN ENERGY-EFFICIENT UPGRADE FOR YOUR BUSINESS

Power Savings Blitz is an energy conservation program offered by Oshawa PUC Networks Inc. (OPUCN), in partnership with the Ontario Power Authority. This program provides small businesses with up to \$1,000 in free¹ energy-efficient lighting and equipment upgrades – all with the aim of helping businesses like yours save money on your utility bill.

When you conserve energy, you're doing more than just helping your business' bottom line – you are also contributing to a cleaner environment for your customers and the community.

The program is being offered to small businesses that have an annual electricity demand of approximately 50kW or less, in the non-food and office sub-sectors.

What Power Savings Blitz Offers:

- Funding up to \$1,000 for retrofits (average total value of upgrades is \$840).
- Helps reduce electricity consumption and provides electricity savings of up to \$400 per year.
- Free assessment.
- Turn-key lighting retrofits and water heating enhancements for small businesses; covers materials and labour.
- Upgrades include:
 - Fluorescent lighting systems (T8 and CFLs)
 - LED “EXIT” signs
 - Water heater jacket
 - Pipe insulation
 - Faucet aerator

¹ Subject to the terms and conditions of the program. No obligation to carry out a retrofit valued greater than \$1,000. Business must meet program eligibility requirements.

Eligibility requirements:

- Program is entirely voluntary; business must be located in OPUCN's service territory.
- Small businesses in the office or retail sub-sectors including beauty salons, professional offices and other small retailers (but excludes food-related businesses who have unique requirements that may be addressed by future programs).
- Annual electricity demand of approximately 50kW or less and individually metered.
 - Most small businesses meet these two criteria. If you're unsure, please contact Customer Service at 1-888-568-3081

How Power Savings Blitz works...

Step 1: We assess your business

An advisor will conduct an assessment of your business and provide a list of recommended energy upgrades to help your business become more energy efficient.

Step 2: We identify your options

After the assessment is completed, you can then decide if you want to have a retrofit completed. Funding of up to \$1,000 is provided for the retrofit (including cost of material and labour), with an opportunity for the customer to pay costs over the \$1,000 limited. The minimum amount for a free retrofit is \$300,

Step 3: We install and upgrade

A licensed electricity contractor will install your free upgrades with your approval at your convenience.
